Reviews of the Automotive Service Basics by Donald Wesley Patten, John Remling

Arcanescar

Excellent condition

Brakree

I ordered this book for a class I am taking and it is perfectly suited for this environment. The price is what really excited me cause at the school bookstore it was about \$100 and I got it for about \$25! The book itself is written well with plenty of photo's so you don't get lost. I am very happy with this purchase.

Voodoozragore

Although cars today no longer have carburetors and such, it was very interesting to read and have for a reference. I learned a lot.
