Reviews of the Herbal Remedies

Manarius

This book arrived early than scheduled and was in excellent shape. I had a copy years ago, I was very happy to find another in such good condition. As a beginning resource for work with herbal remedies, this paperback is invaluable. I was devastated when my other copy was lost. There are recipes and ideas in this book I have not been able to find elsewhere. It's easy to read and many of the herbs are easy to source. Anyone just starting out should give this a chance...

The book has some good remedies, but some are rather outdated. Perhaps a newer version would be of more value.
